

You Have Been Phished

This is a phishing attempt. Please be cautious with your credentials.

Tips to Avoid Phishing Scams:

- Double-check the email sender's address before clicking any links.
- Avoid clicking on links or downloading attachments from unexpected emails.
- Verify the legitimacy of a website by checking its Http and Https certificates.
- Keep your personal and professional passwords different.
- Use strong and unique passwords as per JSP's Policy.
- Go through the information security CBT awareness training available in Success Factor LMS Platform.<Link>
